

#	PHASE	WHAT HAPPENS	YOUR JOB	TIME	HOW OFTEN
<i>once per page</i>					
0	OPEN	you name the page and the one thing it must decide (haipipe-page CRE-ATE, not a phase)	YOU say what it must decide	15 min	once
<i>the loop — CHECK may send you back to any row in this band</i>					
1	OUTLINE	a machine writes the SHAPE only: sections, bullets, and what each bullet still owes	YOU approve it, or send it back ← <i>reject costs 10 seconds; this is the cheapest gate</i>	10 min	⌚ each round
2	DRAFT	a machine turns each approved bullet into sentences carrying visible <HOLE>s	nothing. Do NOT fill a hole	0	⌚ each round
3	PROBE	a machine looks for an answer that already exists, then opens a card and asks the bank	nothing	0	⌚ each round
4c	CITATION	a PERSON finds the published work; a machine may copy bibtex and may never compose it	YOU paste the entry, tick verified	20 min	⌚ per entry
4v	VALUE	the bank answers, bound BY PATH to a real file, with the proof pulled next to the card	YOU read the proof, tick read : ← <i>this is the cost, and the tick is what permits quoting</i>	30 min	⌚ per card
4d	DISPLAY	a machine freezes the exact bytes a figure will be drawn from, and never draws	nothing	0	⌚ per figure
<i>4c, 4v and 4d run at the SAME TIME. None of the three waits for another to finish.</i>					
5	REVISE	a machine replaces every landed hole, draws the figures, and rebuilds the pdf	nothing	0	⌚ each round
6	CHECK	a machine and a DIFFERENT reader judge the BUILT pdf, never the markdown, and never the producer's own work	YOU accept, or say where to go back ↔ back to 1, 2, 3, 4 or 5	15 min	⌚ each round
<i>reached only when CHECK says CLOSE</i>					
7	ACCEPT	each figure is bound to the inputs it was accepted with	YOU tick accepted : ← <i>it reverts if the inputs change</i>	10 min	once per figure
8	CLOSE	the page's own ruling, named by its Page Type	YOU sign it ← <i>this ends the round</i>	5 min	once per round

TIME is an ESTIMATE and nothing else in this table is. The board holds ONE live run, 260805-0216-QB8e, whose five receipts are CHECK, REVISE, CHECK, REVISE, CHECK: no OUTLINE, DRAFT, PROBE or EVIDENCE phase has ever been timed here. Every other cell is transcribed from a file frozen in intake/inputs/.
